Dear Mr. Gass

For us folks living at the tip of Africa, it has been a great privilege to meet people from far away Japan. Thank you for your many visits to come and see for yourself that all is well with us and on one occasion, bringing your friends from Radish Boya, for us to meet too. Thank you for giving Patrick the opportunity of a visit to Japan to share his experiences of dealing with orphaned children. He has shared what he saw and experienced there with us, which has broadened the outlook of so many youngsters in our country.

Over the past several years, your constant and faithful financial assistance has enabled us to care for and nurture so very many orphaned children to become mature adults. Through the Rooibos Charity project and the generous support from Gass Co., Ltd and Radish Boya, we were fortunate to receive a total contribution of JPY5,685,363 over the entire period of the support program, 1 Feb 2012 to 30 Sept 2014.

With this money we have been able to provide the children with shelter, clothing and food and enable them all to attend local schools. It also allowed us to build a new netball court and soccer field for the children. Thank you for the part that you and all of your rooibos fans have played in this process. Each cup of Gass tea that has been consumed in Japan has made a difference to the lives of the Two Sisters children.

May God protect, guide, and lead you to new and even greater heights.

Most sincerely,

Gloria Luus
Chairperson.
